

## **Painting Water Reading & Materials List**

The required reading is *Light and Water* by Sir Montagu-Pollack (1903). It can be downloaded for free from [archive.org](http://www.archive.org).

Here is the link.

<http://www.archive.org/details/lightwaterstudy00montuoft>

Also required, *Carlson's Guide to Landscape Painting* (available through Amazon)

## **Materials**

Feel free to use the palette you normally use but you may want to add a few transparent colors. I would suggest:

Gamblin Transparent Earth Yellow

Rembrandt transparent yellow green or Gamblin olive green

You will need 6-8 panels for your studies.

You are free to use your preferred panel or canvas but I would suggest not using cheap cotton canvas. You can use Arches oil paper. Check the Resources tab of the Atelier website for recommendations on linen panels.

I would suggest sizes from about 9 x 12 up to 12 x 16.

You will also need drawing materials--graphite (2B, 4B) and good drawing paper like Strathmore 400.
